METU NUI

# PREPARE TO RISE!

Once, they were TOA METRU, the greatest heroes in a city of legends. Now, as darkness shrouds METRU NUI, they have become TOA HORDIKA – half-TOA, half-beast, transformed by the venom of the evil VISORAK spiders. Will they still succeed in their vital mission ... or will their RAHI sides drag them down into the shadows forever? ■

## Toa Hordika Vokama

600 0001000 000000

In his efforts to be a great leader, Vokama led his friends into a trap. Now he must resist the temptation to give in to the beast inside of himself. His blazer claws allow him to charge up his Rhotuka fire spinner for even greater power.

## Toa Hordika Nokama

600 0001000 000000

Nokama is torn between her peaceful, calm side and the raging Rahi unleashed in her by her mutation. Her fin barbs can be used for underwater climbing or to charge up her Rhotuka water spinner to awesome levels.

## Toa Hordika Whenua

600 0001000 000000

Despite being mutated into a Toa Hordika, Whenua has dedicated himself to saving all the Rahi menaced by the Visorak. His twin thumper tools can summon creatures from deep underground or charge up his Rhotuka earth spinners to unleash earthquakes.

## Toa Hordika Nuju

600 0001000 000000

Once the most rational Toa, Nuju now must fight to control the darkness of his Hordika half. His Hordika tentacles can be used for climbing, communication with Rahi, or to charge up his Rhotuka ice spinner.

## Toa Hordika Onua

600 0001000 000000

Only his willpower keeps Toa Hordika Onua a hero, despite the call of the Hordika to forget his duties and live like a wild Rahi. His claw clubs can haul stones with uncanny accuracy, and also charge up his Rhotuka stone spinner to the maximum.

## Toa Hordika Matou

600 0001000 000000

Matou hates being a Hordika and will take any risk to reverse the mutation. His long blades can slice through even the strongest Visorak webbing, or charge up his Rhotuka wind spinner.

# Build the Fastest Ferrari!

The Ferrari Enzo is one of the most sought after street cars in the world. With the LEGO Racers Enzo set (8852) you can build and race your own replica of his powerful car.

## 1 Ferrari Fact

The Enzo is one of the world's fastest street cars.

## 2 Ferrari Fact

A powerful V12 engine produces more than 600 horsepower, reaching the car from 0 to 62 mph (0-100 km/h) in just over 3 seconds. Buckle your safety belt!

## 3 Ferrari Fact

High speeds and bad guys can mean trouble, so a special type of tire was developed so it can keep the speedy Enzo glued to the road at blistering speeds.

## 4 Ferrari Fact

Did you know that the Enzo is named after a person? Enzo Ferrari was the founder and original owner of the company that bears his name.

## 5 Ferrari Fact

Ferrari has a great deal of experience in Formula 1 racing, and many of his lessons it learned about building race cars were applied to the Enzo. It's high-revving V12 engine, carbon ceramic disc brakes, 6-speed manual transmission and sleek body style all were derived from Ferrari's racing experience.
